
Microsoft SQL Server 2000 (MSSQL 2000) Serial Key Keygenl Extra Quality

[Download](#)

SQL Server 2000 EE is installed with one of our company's license keys. We would like to change this key to one provided by the customer. How can this be done? This question is often asked to me. At the same time, I always remind you that from the point of view of the client and from the point of view of the customer, the key to installing SQL Server is the same. To change the key, you must use the ProChange program. However, the ProChange program is not everything. You should also get the key file, which is on the disk. Therefore, first you need to find out which keys for installing SQL Server are on the disk and find this file.
