KEYMACRO is a keyboard macro utility which lets you create keyboard macros for repeating any number of keystrokes. KEYMACRO uses a small window and offers you a clean and simple interface. KEYMACRO allows you to define repeat intervals for your macros (1, 2, 3, 10, 30, 60 seconds, 10 minutes, or any other interval) and the repeat number. KEYMACRO supports cutting and pasting. You can cut the currently selected text and paste it into any application that supports pasting. The program saves all macros in a small text file which can be opened with any text editor (WordPad, Notepad, or any other). KEYMACRO can load macros created by other macros utilities. It will try to find them in the current directory or in the registry. The program can be used from any computer with Windows operating system.
