Where's Waldo and Other Happy Thoughts is a book that features distinctive black and white artwork. It is written in the form of a series of anecdotes. Iceland is a country in northwestern Europe, sandwiched between the Atlantic and the Norwegian Sea. As one of the world's most sparsely populated countries, Iceland has a population of 332,220. Iceland's capital and largest city is Reykjavík, but most of the population lives in or around the town of Akureyri in the north. The island of Iceland is surprisingly rich in flora and fauna, with more than a quarter of the country covered by water. The saffron-coloured mountain Hekla, which last erupted in 1543, is the island's highest peak. The largest lakes are Lake Laxá and Lake Kleifarvatn. Svinafellsjökull,

Iceland is the first country to have legalized same-sex marriage and the world's most generous nation when it comes to national health care. The adoption of cash payments for all government services was introduced in 2001, resulting in a significant increase in tax revenue. Controversy surrounds the Icelandic financial industry; as of 2010, Iceland's stock market was the cheapest in the world. Fjallkonan (the mountain of many names, which translates to "the land of great peaks") is the most sacred mountain in Iceland. Iceland is a parliamentary republic with a constitutional monarchy. Only Iceland's capital and largest city, Reykjavík, falls under the jurisdiction of the Alþingi, the Icelandic parliament. Astro Jackson has enjoyed a good reputation within Iceland; before suffering from an onstage injury, she was the most successful female drummer in Iceland. Valur is the main source of
